PhD in Accountancy (2014)

It has been my dream to acquire a doctoral qualification and ViTM helped me to achieve that dream. As I take a walk down memory lane, I remember there were hurdles and thorns along the way, but completing my PhD made me forget all the obstacles. Only sweet memories remain fresh in my mind.

DATO' MOHD KHAY BIN IBRAHIM

My friends used to call me budak nakal and I guess I was pretty much a fun-loving sort of guy in ViTM. Nonetheless, I put my love for fun aside and worked hard, with the full support of my lecturers, family and friends. I have continued to acquire more current and relevant knowledge as I progressed in my career path but the credit for my initial success goes to ViTM alone.

The reason for my being where I am today is because of the wholesome education I received from UiTM. The task in my organisation has been facilitated by the superb experience in UiTM.

ACCA (2002)

I have great memories when I undertook my ACCA. It was one of the most challenging and intellectually stimulating academic chapters in my life, but together with my colleagues and lecturers, it was also one of the most enjoyable and engaging time! How can I forget that I met the love of my life, who is also an alumna of ViTM's ACCA programme. A huge vote of thanks to our lecturers, and keep up the good work, ViTM!

SHAHRIZAL SUHAINY

I was fearful initially of entering an institution of higher learning but as I look back at my years in ViTM, I realise that a University is not just a place to obtain a degree but also, a place where my attributes and skills are developed and nurtured. I learnt the importance of problem-solving, decision-making and teamwork, all of which are so useful in my career today. Thank you so much, ViTM.

ACCA (2001)

I am proud to say that my A-Levels, Degree and ACCA were undertaken and completed in ViTM. The lecturers were par excellence and I dare say, a cut above the rest. one of my fondest memories in ViTM was the setting up of the Association of Professional Accounting Students (APAcS). together with my friends, with a vision to encourage ViTM students to pursue professional accountancy courses. ViTM will always be di hatiku.

Being the Deputy Director of the Analytics and Statistics Division of LHDN can be very stressful indeed but when I reflect on my student days in ViTM, I keep smiling to myself and everything seems less hectic and stressful. It was challenging, but also, the proudest moment of my life when I received both my master's and PhD scrolls, although eight years apart. Thank you ViTM for a most enlightening and stimulating stint.

HJH. NURANISAH BINTI HJ. MOHD ANIS
Chief Risk Integrity and Governance Officer
SP Setia Berhad

Diploma in Accountancy (1993)
Advanced Diploma in Accountancy (1996)

My blast from the past that stands out in my mind is my fear of public speaking. Making a presentation in front of the class has even made me cry. However, as I like to sing, I sang my way through my stage fright and even became Dikir Barat champ. I still have butterflies in my stomach now, but I am definitely more confident.

NADIA RAHMAT

Studying accountancy is not just about numbers. It is beyond that. I am glad that I had the chance to study in UiTM. I led the editorial team, and what I remember fondly is interviewing Tony Fernandes, among others. Further, I had good support from friends and lecturers, and for that, I am beyond grateful, Alhamdulillah.

I remember ViTM as a place of camaraderie and compassion – a place where I learnt to be a better human being through the noble values of, "Usaha, Taqwa, and Mulia" . A place where the lecturers taught us with passion and sincerity, putting us onto a solid career pathway. I remember Menara SAAS, standing strong, housing future accountants, and teaching them about professionalism and integrity. ViTM di hatiku.

I have only one life - there were choices and decisions to be made while being mindful of the accompanying sacrifices and commitments, insya Allah. This was "The Road Less Travelled", for me, from my initial journey to acquire knowledge via my Diploma in Accountancy in 1995 at ITM, followed by my Bachelor of Accountancy (Hons) in 1999 at ViTM to my Master of Forensic Accounting & Financial (riminology) in 2013. I am indeed thankful for the experience as an off-campus/part-time student that has shaped me into what I am today.
